

CAARS™ 2
CONNERS ADULT ADHD RATING SCALES
2nd EDITION

CAARS™ 2

AN EASY TRANSITION FOR CAARS™ USERS TO CAARS™ 2

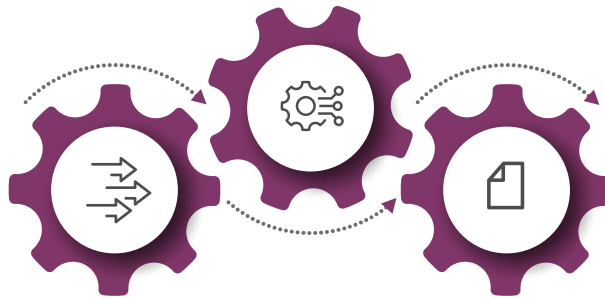

An efficient process will be made available to online product users of the *Conners' Adult ADHD Rating Scales (CAARS™)* to help your transition to the *Conners Adult ADHD Rating Scales 2nd Edition (CAARS™ 2)*. This simple self-serve option will be implemented through the *MHS Online Assessment Center+ (MAC+)*.

- On the day of CAARS 2 release, all MAC+ Admin account users who have CAARS Online uses will have immediate access to CAARS 2 within their account.
- Any unused form specific to CAARS Online uses can be substituted for CAARS 2 uses. Uses will be substituted on a one-for-one basis.
- The transition process will launch when CAARS 2 is released and will be available for 12 months from the release date.

HOW IT WORKS

TRANSITION

On the day of CAARS 2 release, all MAC+ Admin account users who have CAARS Online uses will have immediate access to CAARS 2 within their account. Admin users must enable CAARS 2 through Account Settings/Manage My Assessments. Admin users can also grant their Sub-users access to CAARS 2 by enabling access for Sub-users.

ADMINISTRATION

Admin and Sub-users can administer CAARS 2 to clients even when their CAARS 2 use balance is zero.

GENERATING REPORTS

Admin and Sub-users who want to generate a CAARS 2 report when their CAARS 2 use balance is zero can do so by selecting an available CAARS use. Admin and Sub-users can specify which CAARS use to substitute during the report generation.

Note: During the transition, if CAARS 2 uses are purchased and added to the account, the CAARS 2 uses will be used first to generate reports, before the substitution option is available again.
